GAITHER CAUGHT.

Marshal Barnett Locates Man at Paducah Who Killed Scott Holeman

NEGRO HAD RECEIVED WARNING AND WAS PREPARING TO LEAVE.

After some of the smoothest detective work on the part of himself and assistants under his direction, Marshal Barnett, of this place, landed Major Gaither safely in a cell at the county jail at Madisonville Friday noon, charged with the murder of Scott Holeman on Christmas night. If the story could be told in full it would make very interesting reading, but peculiar circumstances surrounding the work of detection compel secrecy and the details cannot be told. Briefly the story is that Mr. Barnett located Gaither at Paducah, went to that city to make the capture, and on Thursday afternoon, with the assistance of Detectives Moore and Will Baker, took him into custody. They knew Gaither was in a certain part of the outskirts of the city, a tough district inhabited chiefly by the lower class of negroes, but they were forced to keep careful watch for some hours before their man appeared, about four o'clock, in company with one or two other negroes. Mr. Barnett was watching on one side. There seems to be but one disappointment in the case for Earlington's Marshal—that Gaither did not come his way, but fate took him into the hands of the Paducah officers. The negro for some reason had left his revolver, a fine .45-calibre Colt, with which he committed the crime, and was taken without a struggle. There would probably have been a shooting match if Gaither had had been armed, for his conversation afterward showed that he realized he was in a bad way.

Gaither admits that he killed Holeman, but has told conflicting stories about the crime. He is reported to have said at one time that he did shoot Holeman and that he had bought the big pistol for that purpose. He told that official that he had shot at another negro and hit Holeman by accident. But at the same time he asserted that Holeman had fired two or three shots at him before he used his gun. Gaither left his overcoat and some other belongings at Paducah, saying that it was useless to go back after them, that he was going to jail and would not need them. He seemed to feel that he would go to the penitentiary for life if he did not fare worse. Gaither had received a letter and a message warning him to leave, that Mr. Barnett was after him, and was preparing to get away at the time of the capture.

The trouble that culminated in the killing came about in this way. Gaither and Holeman were companions and both were musicians of the banjo and guitar type, frequently playing together for dances and on other occasions. Gaither had some weeks previously loaned Holeman some money and was holding a guitar as security. On Christmas evening Holeman wanted the guitar and went to Gaither's home to get it. Gaither was not at home, but Holeman took the guitar anyway and carried it to his home. Gaither when he came missed the guitar, followed to Holeman's house and knocked at the door. It is claimed that when Holeman appeared at the door, Gaither shot him, the bullet passing through his liver and hit-

ting a slight flesh wound on a woman who stood behind him. Holeman died next day. Gaither denies the story that he killed a man in Kansas City in self-defense eleven years ago. He says he has a brother who has killed three men and is now serving a life sentence.

Since his incarceration in jail Gaither has implicated Cave Rhodes in the murder of Holeman. Rhodes has been arrested and placed in jail at Madisonville. There was a reward of \$100.00, which Marshal Barnett shared with the Paducah detectives.

JAIL DYNAMITED.

Desperate Attempt at Barbourville.—Suicide Woman Confederate.

Barbourville, Ky., Jan. 14.—An attempt was made to blow up the Knox county jail last night, and would have succeeded but for the prompt action of officers. A charge of dynamite was exploded in the end of a corridor, the purpose being to tear out the wall. This did not succeed, as the floor, walls and ceiling are steel, and before other charges could be exploded officers arrived. A thorough search by officials revealed several other charges of dynamite, diamond saws and files and a closer inquiry established that they were obtained from a local hardware store, being purchased by a woman, supposed to be a confederate of one of the prisoners.

DEATH'S FEARFUL RECORD.

Thousands Killed in Peaceful Pursuits in Allegheny County, Pa., Last Year.

Pittsburg, Pa., Jan. 10.—More men are killed and maimed in Allegheny county in peaceful pursuits in one year than were killed and wounded in the great battles of history. Statistics for the past year show that there were killed and injured in the iron and steel mills and blast furnaces 9,000. In other mills, shops and factories 4,000 were sacrificed and either died or were maimed, while the coal mines swell this figure to 400 more, and the railroad victims include an additional 400, making a grand total of 17,700. In addition to this number, there are thousands of cases that are not reported.

State Editors Meet at Frankfort.

A mid-winter meeting of the Kentucky Press Association will be held in Frankfort Tuesday, Jan. 28. This meeting will be one of importance and will be devoted mainly to business during the day. At night there will be two addresses. One of these will be delivered by A. Y. Ford, of Louisville, and the executive committee will make an effort to secure Chas. M. Harvey, editor of Harper's Weekly, of New York, to be the other speaker.

Officers Elected.

The following officers have been elected by the United Order of Golden Cross for the present year:

Tillman Clark, N. C.
J. B. Wyatt, Vice N. C.
Blanche Wyatt, U. P.
Thos. Young, Jr., K. of K.
Mrs. S. E. Stevens, F. K. of R.
John Evans, Treasurer.
Roy L. Browning, W. of I. G.
Oscar McEuen, W. of O. G.

Youtsey Afraid of Howard's Wrath.

Henry E. Youtsey, serving a life sentence in the Frankfort prison for the murder of Gov. Goebel, has appealed to the authorities not to bring there Jas. H. Howard, also convicted of Gov. Goebel's murder. Youtsey was the principal witness against Howard and fears meeting him.

CRAP GAME RAIDED

Two Negroes Fined—One Wore Overcoat Stolen From Conductor Cunningham.

Funny Coincidence of Theft Suspect.

A crap game raided and two negro gamblers captured Tuesday night while coming around a fire in the northern part of the railroad yards furnished exercise for the police court and peace officers of Earlington. Marshal Barnett and Deputy Mitchell raided the game and two negroes who were in sight when they arrived made an effort to run, but were stopped by a warning shot from the Marshal's pistol and an order to halt. The two proved to be Chas. Wilson and Will Thomas, both of Madisonville. Judge Cowell fined each \$20 and cost. Thomas paid \$4 on account and was held in jail on charge of stealing an overcoat belonging to Conductor Ed Cunningham, which he was wearing at the time of arrest. Mr. Cunningham identified the coat as one he had missed from his couch on the interurban train on Tuesday. Both negroes were wearing new clothing and the suspicion was entertained that they may have been in the robbery of Dulin and McLeod's store at Madisonville on Saturday night. Wilson gave bond and was put to work to pay his fine.

Mr. W. J. Dulin came to Earlington yesterday and saw the prisoner Thomas, but did not find any of the missing clothing from the recent robbery. An amusing feature of the case is that the negro Thomas was on a previous occasion arrested on charge of having stolen a pair of trousers from this same firm. The trousers tallied exactly with the firm's missing goods, but the prisoner swore he had bought his of a Guthrie firm. On this testimony he was released. Afterward Mr. Dulin wrote to the Guthrie firm and they replied they had never handled the make of trousers in the case.

U. S. Government Will Be Able to Read All Wireless Messages.

Brig. Gen. Greely of the United States signal corps announces that as the result of experiments by experts under his direction, receivers have been perfected that will enable our government to intercept and read the messages sent by any system of wireless telegraphy in use. The invention is absolutely secret and will remain so, but the truth of the statement is confirmed by Lee De Forest of the De Forest wireless telegraph company. It is understood that the government is at once to install the improved receivers in every fort in the country.

Biggest Farmers' Combination.

F. E. Andrews, attorney for the National farmers' exchange, announces that the amalgamation of the National farmers' exchange and the American farmers' union is about perfected. The new organization will be the greatest society of farmers in the United States. The National farmers' exchange, capitalized for \$100,000,000 operates several hundred elevators in Illinois, Iowa, Nebraska, Kansas, Minnesota and the Dakotas. The American farmers' union has an extensive membership in Texas, New Mexico, Nevada, Indian Territory and Oklahoma. A new name is to be chosen for the combined associations.

"Are you going to swear off this year, as usual?"
"Yes—taxes."—Exchange.

J. R. HARRISON PROMOTED.

Will Leave Nortonville in the Near Future for Louisville.

While in Nortonville Tuesday a representative of The Bee learned that Mr. J. R. Harrison, who is joint agent at that place for the L. & N. and I. C. railroads, has received notice that he is soon to be promoted to a position in the general offices in Louisville. Mr. Harrison has been agent at Nortonville for the past five years and has fully demonstrated the fact that he was made for better things by his efficiency in handling the heavy business for both roads at that point. He has made quite a number of friends during his stay there who will be rejoiced to know that his good service has been recognized by the officials.

BABY DIED

While on a Visit to Friends Here—Parents Heart Broken.

Mr. and Mrs. William Crenshaw, of Evansville, Ind., lost their three months old baby while on a visit to friends and relatives at this place this week. The baby was in good health when they left Evansville but became ill shortly after reaching this place and although everything possible was done for the little sufferer it was of no avail, and the child died and was buried at Zion cemetery, near Hanson, Tuesday afternoon. Mr. and Mrs. Crenshaw are heart broken over the loss of their child. They formerly lived in Madisonville and only recently moved to Evansville.

Card Party.

Misses Carrie and Lucy Crenshaw entertained a few friends at cards Thursday evening, in compliment to their guests, Misses Margaret and Eula Richards and Miss Bettie Crenshaw, of Hopkinsville. The evening was most pleasantly spent in playing cinch. Delightful refreshments were served. Those present were Mr. and Mrs. Geo. C. Atkinson, Mrs. Southworth, Dr. Johnson, W. A. Randolph, Brick Southworth and Chas. Trahern.

Stable Changes Hands.

W. S. McGary sold his livery stable to Thos. Stone this week. Mr. McGary will engage in other business in a short time, but for the present is assisting Mr. Stone. It is not definitely known just what business Mr. McGary will engage in, but rumor says he will build a first class hotel in this city provided a suitable location can be obtained. It is to be hoped this is true, as Earlington stands in need of a good hotel centrally located.

Pool Room in Town.

J. W. Robinson of this city has converted the rear of his store into a pool room and the young men of Earlington will have an opportunity to knock the ivories without going to Madisonville. A partition has been built about midway of the store and two pool tables will be installed as soon as they arrive which will be in a few days. George Robinson will have charge of the pool room.

Maj. H. B. Hersey Also Will Fly for North Pole in Airship.

Maj. Henry B. Hersey, former chief of the government weather bureau at Louisville, and a veteran of the Rough Rider service in Cuba, is to be a member of the Walter Wellman airship expedition to the north pole. Major Hersey is known as a pilot while in the weather service at Louisville.

POLITICAL SIZZLE.

Warm Doings in Congress and Strenuous Times Ahead.

Ex-Confederate Soldier Fast Passing Out of Public Life.

Washington, Jan. 15.—The political pot has been boiling violently and with a great sizz and splutter during the past week. At times there has been imminent danger of an explosion adding the brand-new shiny cover of the legislative dish scorching out of sight and reducing to a collection of scraps the neat and orderly appointments of the Congressional kitchen. So far, the President and Speaker Cannon, in their capacity of joint chief cooks, have been successfully averting a catastrophe. It cannot however be denied that the situation is still a very ticklish one. The present Congress, perhaps, owing to the unusual number of new members unversed in the art of kindly following the official bell-wether of the flock had developed an unusual and unexpected spirit of independence. In consequence the legislative slate prepared by the majority leaders has been subjected to very sudden revision. Bucking the party machine in Congress is always a hard task, and it is probable that the Speaker's policy, which is understood to be also the administration policy, may win out in the House, but not without a fight which will leave scars on both sides. Granting that, it is still a problem if the Senate is going to fall in line behind the White House bandwagon. There are indications that some influential Senators are far from being consumed with eagerness to march in a Rooseveltian triumphal procession, and the United States Senate is a hard body to coerce.

At the present time the Republican "insurgents" in the House have combined to defeat the joint Senate and Philippine tariff bills now under consideration, by voting with the Democrats and have the House leaders been urged for fear they will succumb. Attempts are being made to deplete the insurrectionist forces by the application of official pressure and promises.

The Senate is preparing to make a strict investigation into affairs at Panama, is showing an attitude toward the Dominican treaty that bodes no good to that agreement when a vote is taken on the question of ratification, and is preparing to take its own time in deciding on the railway rate legislation which shall be enacted and to do the work in its own fashion. There is also a patronage fight on in the Senate in which Senators Deussen and Foraker have come to an agreement for the purpose of preventing the confirmation of the President's nominee for the consulate at Glasgow, Scotland. The present incumbent is an Ohio man and it is proposed to replace him with the ex-United States Marshal for the eastern district of Tennessee in order to satisfy the political obligations of Representative Hale, the new Republican member from the Knoxville district.

Senator Morgan's railroad rate bill, which was at first regarded as merely an expression of the Alabama statesman's individual views, is attracting serious consideration. The Senator's contention that his bill differs from the other proposed measures in restoring the supremacy of the common law, and confirming the principle of trial by jury, that it is a plain and simple measure, easily understood by the ordinary intelligence, and, finally, that it is the only bill on the subject whose constitutionality is unquestionable is attracting the attention of those interested in the subject. The Morgan bill is not likely to pass but the notice it is attracting illustrates the growing sentiment in favor of a solution of the question through the machinery of the courts.

Protests and petitions on the subject continue to come in. Tennessee recently sent up three memorials remonstrating against enlarging the powers of the Interstate Commerce Commission. One came from a commercial organization, the Grain Dealers' Exchange of Nashville, and another from the Tennessee Farmers' Union. The third came from the Division of the Brotherhood of Locomotive Engineers.

When Judge Paynter takes his seat in the Senate next year Kentucky will be represented for the first time by a man born too late to have a civil war record. The ex-Confederate soldier is fast passing out of Congressional life, however, and Judge Paynter will not be the only Southern Senator whose memories do not include years spent in following the battle-flags. It cannot be long now before the last survivor of the great conflict on either side passes out of public life forever. Irrespective of party affiliations it is safe to say that none will be followed by more genuine regret than "Joe" Blackburn. His ex-Confederate colleagues include Senators Morgan and Pettus, of Alabama, Berry, of Arkansas, Mallory and Tallahassee of Florida, Bacon of Georgia, McEnery of Louisiana, McLaurine and Noney of Mississippi and Daniel and Martin of Virginia, all of whom saw service in the war. COUNTY ASSESSORS NEGLIGENT.

Commissioner Vreeland Says Their Reports of Statistics are Wholly Unreliable.

In his report to the General Assembly, Commissioner Hubert Vreeland, of the Bureau of Agriculture, Labor and Statistics has this sharp criticism for county assessors:

Duties of County Assessors. While this bureau has a corps of more than two hundred volunteer correspondents who report acreage and condition of crops in percentage as based on previous years, or a ten-year average, it is wholly dependent upon the report of the State Board of Equalization for all statistics relating to number of acres, pounds and bushels. These reports, sent to the Board of Equalization by the County Assessors have proved to be not only so incomplete, but so incorrect that many complaints have come to this department by farmers of various counties in the State who claim that their respective counties have been done an injustice by the dissemination of such figures.

As it is important that this department should be able to send out among the farmers accurate statistics regarding the number of acres and the number of pounds and bushels of such important crops as tobacco, corn, wheat, oats, rye, hemp, etc. I respectfully recommend that the law regulating the duties of County Assessors be so amended as to insure the collecting of full and accurate statistics regarding these important crops.

Mrs. Feiler Moves to Madisonville.

Mrs. Sadie Feiler of this place, has purchased a home from Will Patterson of Madisonville, and she and her son, Will, moved there this week. Mrs. Feiler has long been a resident of this place and has quite a number of friends here who regret to see her go. She is a sister-in-law of Mr. O'Brien, of Madisonville.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney trouble. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich red blood, that is lavaged to the brain and nerves. The was, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes this and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for the purpose that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of our country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request, therefor by letter or postal card, addressed to Dr. E. V. Pierce, Buffalo, N. Y. What Dr. Pierce's medicines are made of. The "Wonders of Nature" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the NAME OF HONOR on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's Great Thousand-Pain-Exterminator Common Sense Medical Adviser will be sent free, paper-bound, for 10 cents stamp, or cloth-bound for 25 cents. Address Dr. Pierce as above.

RAILROAD WINS

Damage Suit Against Illinois Central for Death of Miss Smith.

Frankfort, Ky., Jan. 16.—The court of appeals in an opinion by Judge Barker, affirmed the McCracken Circuit Court in the case of Johnnie Smith vs. Illinois Central. Miss Smith, a young woman, was attending a picnic party a short distance from Dawson, and with a party started to walk down the railroad track to Dawson. She entered a long narrow cut, at the end of which were signs, "Danger; keep out," and was run over and killed by a freight train. The lower court found for defendant.

TOBACCO BURNED.

Incendiarism Suspected in Fire at Hawesville.

Hawesville, Ky., Jan. 16.—A large barn, belonging to John Henry Clements, containing 10,000 pounds of fine tobacco, two mules, a horse, several cows, ten barrels of molasses and a large quantity of hay and corn, was destroyed by fire last night. The barn is supposed to have been set on fire. Mr. Clements sold his tobacco, against the orders of the American Society of Equity, of which he was a member. The loss is about \$2,000, with no insurance.

Chronic Constipation Cured.

One who suffers from chronic constipation is in danger of many serious ailments. Orin's Laxative Fruit Syrup cures chronic constipation as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. ANTHRACITE MEETERS

WILL MEET MITCHELL

But Not as a Representative of the Miners' Union.

Philadelphia, Jan. 16.—The first definite announcement concerning the attitude of the big coal corporations regarding the request of President Mitchell, of the United Mine Workers of America, for a conference, was made today by E. R. Thomas, President of the Lehigh Valley Railroad Company, who admitted that he had agreed to meet a Mr. Mitchell in conference as a representative of the miners, but not of the miners' union.

The recent convention of miners at Shamokin authorized President Mitchell to request a conference with the heads of the coal companies with a view to reaching an agreement as to the conditions that shall obtain when the award of the Anthracite Strike Commission expires.

Madisonville Normal Now Open to the Public

Prospects are bright for an excellent class. The instruction is thorough and practical. No Normal student of our former classes has failed to obtain a certificate. Our Graded course, the Normal course, is unexcelled. We cordially invite all to enter who desire to learn. Twelve grades, besides the special Normal course, are maintained all of which are open to the public. Tuition in the Common and in the Normal courses, \$3.00, in the High School, \$4.00. Tuition will be refunded to all students who are sick and unable to attend. Board can be had at, from \$10 to \$12 per month. The advantage of working in and learning the system of a well-graded and thoroughly organized graded school will be valuable to the prospective teacher. Our purpose is to prepare students for successful teaching as well as to obtain certificates. Further particulars address: GEO. W. CHAPMAN, Sec'y., Madisonville, Ky., or Louisville, Ky.

Louisville, Ky., June 13, 1901. Dr. E. V. Pierce, St. Louis, Mo.: Dear Sir: I have suffered three years from kidney and bladder trouble, and one-half bottle of the Texas Wonder, Hall's Discovery, has cured me, and I can cheerfully recommend it.

Yours very respectfully, J. N. ROBERTS, 1819 Maple st.

A TEXAS WONDER.

Suicide Leaves Insurance to Church. Little Rock, Ark., Jan. 17.—Charles R. Owens, a bookkeeper, committed suicide by shooting. He left \$1,000 of insurance money to the Christian Science church here.

CHEERS IN THE SUPREME COURT

MISOURI SAYS GEN. CREATES APPLAUSE IN NEW YORK'S HIGHEST COURT.

H. C. Pierce, the Western Oil King, Will Give His Testimony in St. Louis—Hedley's Brief in the Supreme Court and the Answer of Rogers' Attorney.

New York, Jan. 15.—The features in the case Missouri is pressing against the Standard Oil Co. on Saturday were:

Hearing adjourns to January 30. Judge Glidewell reserves decision on whether Rogers must answer questions, until Monday.

Hedley scores Rogers in court, and is applauded.

Pierce surrenders by phone to Hedley; will testify in St. Louis.

Rogers denies, in a published letter, having any business transactions with Pierce.

Pierce denies, in a published letter transferring Waters-Pierce stock to Standard Oil.

A witness testifies to sending identical letters to both Standard and Waters-Pierce companies.

Hedley leaves for St. Louis, where he has legal business for the state to attend to.

Rogers on the Stand Again.

New York, Jan. 15.—The reappearance of Rogers on the stand this afternoon created a stir among spectators and lawyers. Mr. Rogers made emphatic denial of having had any business transactions with Mr. Pierce.

Hedley applauded.

The feature of the hearing before Judge Glidewell of the supreme court this morning on the question of whether H. C. Rogers should be compelled to answer Atty.-Gen. Hedley's queries was a scathing arraignment of Rogers by the Missourians, who were so widely applauded when he finished that Glidewell had to rap vigorously for order.

AN ARKANSAS TOWN BURNED

SEVEN MEN IN THE BURNING TAMARACK MINE.

Big Flour Mill at Knoxville, Tenn., Destroyed, Causing a Loss of \$200,000.

Little Rock, Ark., Jan. 16.—A special to the Gazette from Russellville says: Fire broke out here Monday night in the business portion of town, and at 11:30 p. m. the greater part of the commercial center was in flames, with small prospect of checking the fire. The loss, but the clearing, \$300,000.

Big Flour Mill Burned.

Knoxville, Tenn., Jan. 15.—The flour mill of the Danlop Milling company was destroyed by fire Monday morning. The loss is placed at \$250,000, with insurance of \$200,000.

Fire in Panama.

Panama, Jan. 15.—At about 12:30 p. m., Friday, the biggest fire which has occurred here in three years started on Macamba street, but was practically under control at 2 p. m. after burning two blocks inhabited by the poorer classes. There is much indignation against the sanitary authorities, owing to the fact that, according to current reports, the fire was caused by the carelessness of employees of that department in fumigating the houses where the flames started. The buildings burned include two public schools and an orphan asylum.

Seven Men in Burning Mine.

Columbus, Mich., Jan. 14.—Herold's mine failed to release the seven men imprisoned underground in the burning portion of the Tamarack mine. Several members of the rescuing parties sent in were overcome by gases and gotten out with difficulty.

THE FUNERAL OF DR. HARPER

The Honorable Temporarily Honored in a Vault in Oakwood Cemetery, Near the University.

Chicago, Jan. 15.—The body of Dr. William Rainey Harper, late president of the University of Chicago, was laid to rest Sunday in a vault in Oakwood cemetery. The final resting place of the body of the distinguished educator will, however, be on the University campus, where it is planned to build a memorial chapel and crypt.

The body lay in state in Haskell hall from eight o'clock until noon in the room where Dr. Harper has laid the faculty meetings in administering the educational affairs of the university. This was according to his wish and the funeral plans which he himself had drawn up and signed before he died.

At noon the casket was taken to Mendel hall, where the funeral services were held. Owing to the small seating capacity of the hall, admission was by card, and only a portion of the students were able to attend the exercises.

Addresses were delivered by President William H. P. France of Brown university, Chancellor E. Benjamin Andrews of the University of Nebraska, Dean Harry Pratt Judson of the University of Chicago and Dr. Lyman Abbott of New York.

The final tributes were numerous, and included wreaths from President Roosevelt and the German emperor, and many other distinguished persons.

Memorial services for the late President were held in many churches of Chicago. The pastors united in bestowing praises first on the man himself and then on the university and finally on the administration.

THE WINDS OF OLD WINTER

They Bring Rain, Sleet and Snow—Damage Done Throughout East Territory.

Indianapolis, Ind., Jan. 16.—Indiana was swept by a winter storm. Near Clinton a school house was blown down; one child killed and eight seriously injured. At Terre Haute, Emory Ford, county clerk, was blown from his seat and killed. At Petersburg the courthouse was badly damaged, and farm property in Pike county suffered. Lightning struck oak tanks near Marion, and a conflagration followed. The gale at Evansville was severe, and considerable damage done.

Chicago, Jan. 16.—A seven-story warehouse was blown down and three men injured. One hundred men were at work, but floors protected them from the falling debris.

St. Louis, Jan. 16.—A blizzard has covered northern Iowa with a coat of ice.

St. Louis, Jan. 16.—High winds blew down a portion of a partially completed building at the city hospital, injuring three men. Thunder and lightning were a feature of the gale. Hall fell. This storm was in the western part of the city in the center of a portion of the sun house and on the river the wind was blowing a gale and snow was falling.

INTERURBAN TRAIN WRECKED.

Collided With Switch Engine Friday—Crew Escape. Serious Injury.

The first accident to befall the interurban train since the inauguration of the service occurred in the south end of the yard Friday evening when the train collided with switch engine 2008.

Conductor Ed. Cunningham and crew were going to Mortons Gap for the convenience of the people there who desired to attend the show at Madisonville, at the time of the accident. Engineer Whelan received injuries about the head and neck that require several days' lay off.

Flagman Hendley Ashby also suffered slight injuries. Conductor Ed. Cunningham, Fireman David Craig and Assistant Trainmaster Ed. Wise escaped with a severe shake-up. No passengers were on board when the wreck happened and none of the switching crew were injured. The rear trucks of the engine and of one coach on the interurban were derailed. The tenders of both engines were badly battered.

A train was made up here and those attending the show arrived a few minutes after the performance commenced.

MISS KOSURE'S RACE.

Hopkins County Girl Making Fine Showing in Tour to Europe Contest.

'Friends of Miss Celeste Kosure, of Madisonville, here, at her home town, at Mortons Gap and elsewhere in Hopkins county have come into a lively interest in her race in the "Tour to Europe Contest," of the Courier-Journal. There are not many copies of that paper bought here that are not clipped of their voting coupons, which are promptly voted for Miss Kosure.

Thus far there is no candidate outside of the city of Louisville whose has received as many votes as has our county candidate, Miss Kosure is one of the most popular young ladies in Hopkins county and the Bux speaks the cooperation of all readers of the Courier-Journal in her behalf. Many coupons have come to the hands of the publisher of the Bux already and been forwarded for her credit. We shall be glad to forward all that may be sent in.

EXPERIENCED NEGRO MINERS AT WORK FOR WEST KY. CO.

Suplt. Bucher Confident He Will Have Sturgis Mine in Full Operation Soon.

The West Kentucky Coal Co., have introduced an innovation for this territory by employing negro mine workers, something heretofore not attempted—but this dourer resort is probably due to the fact that the Company cannot secure sufficient white non-union labor at present to operate the mines. The negroes thus far brought here are experienced miners.

ABOUT FIFTY HOUSES FOR THE NEGRO LABORERS, AND A HUNDRED ROOM HOUSES TO BE BUILT NEAR THE SHAFT.

Suplt. Bucher seems confident he will soon have the shaft in full operation, and the other plants of the Company are being brought up to their capacity.—Sturgis News-Democrat

WABASH'S NEW DEPARTURE

After February 3 the Wabash Will Use Its New Freight Depot in St. Louis.

St. Louis, Jan. 17.—The Wabash railroad has issued notices that on and after February 1 in-bound freight trains from the east will be run solid to St. Louis. Delivery of shipments of less than a carload will be made at the new fourth street station. The same rule will apply to out-bound freight. It will be accepted for shipment at the fourth street station and will be billed from there instead of from East St. Louis.

Trains will be made up on the west side of the river for the outbound trunk line and will go through East St. Louis without stopping.

COL. JACK CHINN says, "I have as much respect for a second-class thief as I have for a first-class bully." The Colonel ought to know what a bully is, anyway.

MORMON missionaries have been notified by the mayor of York, La., that: "No person can preach the gospel in York whose license is issued by a man having five wife." Pretty good argument with which to meet the Mormon notion of "religious liberty?"

CONGRESSMAN STANLEY is making himself solid with Hopkins county constituents by advocating a Federal building at Madisonville before Mun or Ruby gets the chance. THE BEE is for the Federal building. Who'll be Collector of the Port of Greasy?

Isn't it too bad? The irony of Fate seems there. Mrs. Cassie Chadwick, who filched millions by buttonholing bankers, has been set to working buttonholes in the Ohio penitentiary. What constant and monotonous reminder of the sins of her life.

COL. JACK CHINN has just been telling the students of the State College "How to Prevent Killings in Kentucky." Perhaps the Colonel has some connection with the proposed clause in the new license tax bill that will tax out of existence the right to sell in Kentucky bowie knives and kindred weapons. If there is anything in reputation the Colonel ought to know.

LAST week THE BEE had an editorial upon lawlessness committed by persons allied with the tobacco movement in the Dark Tobacco district. And there have been some criticisms of that editorial. We invite a careful reading of that article and say now that we have nothing to retract or apologize for in that connection. Any man who objects to a condemnation of lawlessness, by whomsoever committed, by so much commits himself as endorsing lawlessness. THE BEE believes there is not a more honorable and law abiding class of men anywhere than our farmers. But, even among farmers, as among professional or business men or politicians, there is an occasional outlaw. And the influence of this occasional outlaw may influence and permeate the actions of others. When such an one lets go his inner desire to have his way, spite of law or reason, is everybody to be silent because he happens to be a farmer or a merchant or a lawyer or a politician? The writer does not think so much of some politicians or even some lawyers but he would, if he could, be a farmer. If he had ever been a candidate for public honors this might create a smile. But not so. All the writer's forefathers have been farmers and we look upon the vocation of the farmer as the life that yields the most profound feelings of freedom and independence. The farmer has our most sincere respect.

Humor and Philosophy

By DUNCAN M. SMITH

UNEXPLAINED.

Ladies, you are very wise.
From your too lips, a word of wisdom
that you do not hold
is not much, so I've been told.
But there's one thing, noted mine,
on which I can't get a line—
Why should you, since wise you are,
speak backward from the rear?

In affairs of every day
shuffling the same you play,
giving no notice that's worth
quite a large slice of the earth:
In the household or the mart,
you can always hold your part.
Why, your record then to me,
speak backward from the rear?

You can twist affairs of state
or can smash a party state,
or can tame a bulky horse,
or a fastened window force.
And a man with heavy fist
round your little finger twist,
but you will, it's known afar,
speak backward from the rear?

It is Good Auto Sense.

"It takes a man with some judgment
to run an auto."
"Well, he should at least have horse sense!"

A Rising People.
An English vicar raises his voice
and declares that unless the automobile
learns to act in a more ladylike manner
in the near future there will be a
great uprising of the people.

We had feared as much, and as there
is no prospect that the huzz wagon will
mend its ways the people should begin
at once to look for a soft place to
light, for we may say that the uprising
has already begun.

Under the impulse of this great monster
frequently the oldest men in the
community join the rising generation
for at least a few minutes, though they
may repeat it later on in the hospital.

For raising families it has also been
found to be unequaled in the quickness
of its work, although the quality is
somewhat subject to criticism. Truly
it may be said that in the history
of the race there has never shored up
a booster quite like it.

Praises His Luck.
When the snow is on the hillside
And the counting is just great
And the ice is smooth and glazy
Where the fellows go to skate.
When the air is keen and snipping
And the boys smoke their curl,
Then a boy is mighty thankful
That he was not born a girl.

The Final Judge.
"He has appealed his case to the court
of last resort."
"Put it up to his wife, has he?"

Seldon's Problem.
"Do you think a man should give up
his seat in a street car to a lady?"
"He can't unless he has one."

Fickle.
In summer time I think we'd prize
A snowball clear up to our eyes.
But when we get it, I'm afraid,
We sigh for nixity in the shade.

Strong on Color.
"What caused her fit of blues?"
"The green eyed monster."

PERT PARAGRAPHS.

Words never fall an inch over a nose.

A man who is naturally frank may
on marrying become naturally diplomatic.

Many a woman's ideals have
gone up in smoke in her husband's cigar.

A smart woman
makes it a point to get
the worst of it when
she argues with a man.

There may be misdeeds with a swanlike
neck, but most of us would rather
not see them.

A diet of words is not to be com-
mended as a promoter of courage.

If necessity knows no law we do not
understand why it hasn't been elected
Judge long ago.

While few men can stand prosperity,
all of them are willing to try.

Some men never feel their oats
except when they have fingers over the
eyes.

Truth is not to be
found in the
mouth of a
man.

NO! NO! NO!

We Are Not Having a CLEARANCE SALE

WE are not going to sell out at less than cost.
Oh, no. There is no reason for our doing so.
We can't make a living that way. We want to tell you
the truth about the matter. We have no old shop worn
goods to sell. But we have some lines of goods that
we are overstocked on. And if you will call at our
store we are confident we can show you some great
bargains. We have several lines of goods that we will
sell at cost, as we want to take an inventory in a short time and must unload some
of our surplus stock. Come and see us and let us show you what we have. And
we will make prices to suit you.

LOCOMOTIVE BLASTS

Fast Running on B. and O.

In a test run on the Baltimore & Ohio, preparatory to establishing a twenty-hour train between New York and Chicago, the distance of 128 miles from Garrett to Chicago Junction, Ohio, was made in 126 minutes, the train attaining a speed of 100 miles an hour at several points.

Engine 2100, in use on the interurban train, was on the Howell, Ind., Saturday for repairs. The engine was in the wreck here Friday night and this action was necessary on account of damages received.

Flagman Hendly Ashby is on the interurban train succeeding Flagman Edwards, who is transferred to passenger run in the same capacity.

Engineer Elmo Shaver has been assigned to the coal run recently put on.

Frank Dennis, of this place, has moved his family to Howell, Ind., where he has accepted a position in the L. & N. shops.

The new steam shovel in use at this place on the yard extension, was sent to Collinsville, Ga., Sunday. This point is on the A. K. & N. division and as important work is to be done on that division it was thought best to ship the machine as soon as possible. The steam shovel originally used before the arrival of the new one will again be pressed into service and the yard extension work pushed to a rapid completion.

Mike O'Connor is firing for Engineer Leonard Huff on switch engine 512.

Eugene Coenen has been transferred from the round house force to switch engine 512, on which he is firing for Engineer Bud Wendelkin.

Brakeman Whit Ashby spent several days last week with home folks at Slaughterville.

Ten new engines of the Atlantic type are now under construction at the shops of the L. & N. R. R., at Louisville. The company being short of motive power a few months ago purchased six locomotives from the Northern Pacific road and placed orders for thirty more. It is said that the company will turn out a score of new engines at Louisville during the present year.

According to the Railway Age 271.63 miles of new road were built by the L. & N. railroad in 1905. The new track laid on the Henderson division was the change of line between Baker's Hill, Goodietts and Greenbrier, Tenn., amounting to 87 miles.

Henry Clews, the New York financier, says "there is little if any prospect of railroad legislation during the present session of Congress, chiefly owing to the conflict of opinion between the numerous advocates of reform."

Conductor Ed. Beal is on the Evansville-Providence train this week while Conductor L. B. Waltz is in Louisville.

Conductor L. B. Waltz is spending this week in Louisville as a member of the Conductors' Adjusting Committee, representing the conductors of the entire L. & N. road. The committee was entertained by the Commercial Club of that city prior to beginning their work.

Mrs. Jas. Cravens, of Mt. Vernon, Ill., has joined her husband here, who is working on north block.

Dispatcher J. W. Long, of Somerset, Ky., a former employee of the Q. & C., has accepted a position on the Henderson division and is on the 3rd track between this place and Guthrie.

Dispatcher Willis, of the St. Louis division, is working last

trick on north end in the office here.

The express office has been moved from the freight depot to the passenger depot. Express agent Warner is kept busy these days handling express and selling tickets since the interurban run has been put in operation.

Engineer Alphonse Coenen was on the interurban train Saturday and Sunday during the absence of Engineer Whalen.

Engineer Crawford was down with the Empire Hill engine Sunday having the boiler washed out.

Ellsworth Evans has been promoted to cashier in the agent's office here.

Strother Hancock was promoted last week to chief clerk in the freight office at this place.

J. H. Warner, in addition to being express agent at this place, is stationed at the depot as ticket agent.

Mrs. Sue L. Morris, of Mt. Vernon, Ind., has accepted a position in the freight office as bill clerk and began her duties this week.

The L. & N. surveying force are now engaged in surveying near South Diamond. This will only require a few days' time and after it is completed they will go to Crofton to work for several days. From there the party will leave the Henderson division for the A. K. & N.

Robt. Fewlick, Jr., who has been employed as stenographer for Foreman O'Brien, was transferred to the office force as record clerk this week.

Cashier Ellsworth Evans and Callier Leo Herb were in Nortonville Sunday visiting friends.

CUTICURA

Soap, Ointment and Pills
the World's Greatest
Skin Cures.

PRICE THE SET \$1

Complete Treatment for Every
Humour, from Pimples
to Scrofula.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalded head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worried parents, as in milk crust, tetter, and salt rheum, all demand a remedy of almost supernatural virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such standards proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humour remedies of the civilized world.

The grandest testimonial that can be offered the Cuticura remedies is their world-wide sale, due to the personal recommendations of those who have used them. From a small beginning in the simplest form, against prejudice and opposition, against mounted hosts of countless rivals, and trade indifference, Cuticura remedies have become the greatest custodians of their time, and in fact, of all time, for nowhere in the history of medicine is to be found another of proceeding them in popularity and sale. In every climate and with every people they have met with the same reception. The continents of the earth are the only limits to their growth. They have conquered the world.

A GOOD NIGHT'S REST

SPEAK FOR IT

"Speak for it" is what it does, for the new in her little heart. This German Syrup, home's great treasure, could breathe and go to sleep.

The greatest tonic on earth is a good night's rest. Restless nights and the terrible exhaustion of a hacking cough are dead dangers of the night when a few doses of Dr. Boecher's German Syrup will insure refreshing sleep, entirely free from cough or night sweat. Free expectation in the morning is made certain by taking German Syrup.

We know by the experience of over thirty years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst cough, cold, bronchitis or lung trouble—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders.

Two sizes, 25c and 75c. All druggists.

D. O. McCalley, well-known physician of St. Louis, has discovered a mechanical process by which air can be extracted from water beneath the surface. Not only can he, or any one else for that matter, extract the subaqueous air from the surrounding water, but he can store it beneath the surface. The possibilities of the discovery are patent. In its application, which is entirely practical, it will solve the question of submarine navigation; that is, supply submarine boats with air without the trouble of the coming to the surface for it.

Pleasant and Most Effective.

T. J. Chambers, Ed. Vincitor, Liberty, Texas, writes Dec. 22, 1921: "With pleasure and satisfaction by me, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and best remedy for coughs and colds we have used."

By the treaty of Portsmouth Japan was virtually granted a free hand in Korea, and she has taken advantage of this power by practically transferring the seat of Korea's government from Seoul to Tokyo. Thus, a country which has had a theoretical or actual independence for nearly thirty centuries is stricken from the map of nations. Japan's conquests, social or political, or both, which are permitted in Manchuria under the Portsmouth convention, may turn out to be immeasurably more important, for Manchuria is a far richer country than Korea.

A Thousand Dollars Worth of Good.

A. H. Thurmer, a well known coal operator of Buffalo, N. Y., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foy's Kidney Cure, then the cure was complete. A few doses started the brook down like fine stones and now I have no pain across my kidneys and feel like a new man. It has done me \$1000 worth of good."

There is an agitation in Glasgow, Scotland, to have umbrellas stands provided on the platform of the electric street cars.

The material of which imitation stones are made is known as "strass." This is made according to different recipes, but usually includes red lead, rock crystal, potassium carbonate, borax and white arsenic. The greater the amount of lead used, in the production of the "strass" the greater will be the brilliancy and play of prismatic colors in the finished stone, and at the same time the higher will be its specific gravity. On the other hand, the stone loses in hardness when it gains in brilliancy.

Impaired Digestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels become constipated. Bile will rectify this: it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle.

The principle of municipal ownership has been carried to an extreme limit in London, where a Turkish bath, the first to be established under municipal control, has just been opened up. The charge of admission to the bath, which is admirably fitted up, is two shillings, and the superintendent declares that he expects to make a good profit for the city. There is also a Russian vapor bath, two large swimming-baths, warm baths for men and women and a public washing-house.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

FROM PULPIT TO STAGE.

Rev. John Richmond Wright Becomes

Actor in "The Holy City."

It is rather a far cry from the pulpit to the stage, but the actor was successfully taken by Rev. John Richmond Wright, who plays the part of John the Baptist in "The Holy City." At the Grand tonight, Rev. Wright resigned the pastorate of the Baptist church at Columbus, Ky., only a few weeks ago to become a member of the theatrical company which is now in the city and declares that he can serve his Master as well as a conscientiously a Baptist minister when foreman of the play as by preaching from his pulpit in Kansas.

Rev. Mr. Wright has had a life of varied experience. He spent several years as a printer and was ordained a Baptist minister when foreman in the office of "The Sunny South" at Atlanta, Ga., some fifteen years ago. He entered the ministry, but retained his hold upon affairs of a more secular nature also. He was elected a member of the Arkansas legislature and served through one session and is a life member of the B. P. O. E., an honor that was voted him by the Galena, Kas., lodge, No. 607, of that order.

On the stage Mr. Wright has had the same success that attended his efforts in other lines of usefulness and the many favorable comments made upon his work by papers in cities he has visited, bespeak for him a most pleasant and profitable career as a thespian.—Burlington, Iowa, Hawkeye.

A California Ivory Mine.

A huge mound of sea walrus tusks has been unearthed in the process of excavating a new Coast Line railway in southern California. The tusks range from two to three feet in length and from nine to twelve inches thick. With them was found the petrified remains of a mastodon. VALUABLE INFORMATION

Each man has a chance in a lifetime to reach the point of success and the opportunity is offered in Missouri, Arkansas and Louisiana, the three great agricultural and timber states, covered by the Iron Mountain Route, where land can be purchased at from \$3.50 to \$20.00 per acre, that is producing from \$30 to \$500 per acre each year, in cotton, corn, sugar cane, fruit and vegetables. The returns from alfalfa growing in this district have proven a record breaker—six crops each year or six tons per acre at \$15.00 per ton on local markets is what is claimed. All that is necessary is for the home owner or investor to make the situation personally, as the country speaks for itself, and on the first and third of each month mouth "homeseekers" tickets are offered at rate of one fare plus \$2.00 for the round trip. UNCLE SAM'S EGG CROP.

The Hen More Impatient, Financially, Than the Country's Wheat Crop.

The eggs and poultry earnings of the United States for one recent year amounted to \$280,000,000. Compared with the financial values of other "industrial trials" it is found that the total value of gold, silver, wool and sheep produced in America during the year in question was \$272,434,315.00. The sugar production of the country the same year was but \$20,000,000.00. The part of the wheat crop used at home, which may consider the most valuable of all our agricultural products, was worth \$429,000,000.00. The great American hog, as consumed at home and abroad, brought \$189,520,095.00. The value of the oat crop was \$78,984,900.00. Potatoes grown in the United States were valued at nearly as large a sum as were the oats. The product of tobacco plantations was estimated to be worth \$35,579,252.00. Cotton, the de-throned king of staples, could show only \$259,161,640.00, as against the magnificent earnings of the feathered rival. The crops of flax, timothy, clover, millet and cane seeds, broom corn, castor beans, hay, straw and so forth, could not, all told, come within a measurable distance of many millions of the poultry earnings. The hens' eggs produced in this country annually would, according to Success' computations, fill 43,127,000 crates, each of the latter holding 360 eggs; also, a train of refrigerator cars to carry these eggs would be nearly 900 miles long. Furthermore, it would take 107,818 such cars to make up this train.

HEAVY WIND STORM

Sweeps Over Kentucky and Much Damage Done in Western Portion of State.

A heavy wind storm swept over the western portion of the State Monday afternoon, and considerable damage was done. The wind was accompanied by rain, and was of short duration. A portion of the roof over Thompson & Hankins' mill at Madisonville was blown off. One of the chimneys on G. R. Lynn's residence and on one of the buildings occupied by the Jones Bugzy Company were blown down. A heavy glass drop in the Kentucky Bank & Trust Company and one of the windows over the Hopkins County Bank were shattered. The roof was blown off the store of Parrish & Jones at Hanson and considerable damage was done at Henderson, Corydon, McHenry and other places in this end of the State. Although the storm raged with fury at Madisonville, only four miles away, there was very little wind at Earllington and no damage done.

DEMAND PROTECTION FOR CHICAGO WOMEN

SEVEN OF HIGH CHARACTER HAVE BEEN MURDERED THERE LAST YEAR.

The Atrocious Murder of Friday Evening Followed by Two Others, New in Both Instances, One Being Shot and the Other Beaten to Death by Thugs.

Chicago, Jan. 10.—Protests, loud and insistent, came from Chicago pulpits Sunday against the lawless conditions which were held responsible for the murder of Mrs. Franklin C. Hollister. This crime, added to the killing of three other women within a few months, roused the ministers and congregations to demand that better protection be given by the police to women. Plans for a mass-meeting to compose this end have been made.

Mayor Dunne, who has returned from Denver, joins in the appeal, saying that the city desired more policemen. He declared it to be the duty of the council to provide a large and efficient force of patrolmen to cover the city more thoroughly.

Seven women of high character have been murdered in Chicago in the last year, four of the crimes being as cold-blooded as any in the history of the history of the city.

The Murder of Mrs. Hollister. Chicago, Jan. 14.—With the wife which murderous hands had used to strangle their victim still about her neck, the body of Mrs. Bessie Hollister, young woman, choir singer and wife of Franklin C. Hollister, a member of the printing firm of Hollister Bros., one of the largest in the city, was lying on a table, in a room in the rear of the residence of Edward Ivins, at 368 Belden avenue. She had unquestionably been murdered by strangulation, and her body thrown upon the pile of refuse during the night.

Richard Ivins, one of several who made the gruesome find, and who reported their discovery to the police, has broken down under close questioning and confessed that he committed the crime, to secure three diamond rings, which she wore on her right hand, and which were missing, or that he attempted to assault her. He says he was drunk at the time.

Mrs. Hollister left her home early in the evening to sing at the funeral of a dead friend. After that she was not seen alive.

There are two ugly bruises on the dead woman's head, which give rise to the belief that she made a heroic struggle for her life.

Relations of Mrs. Hollister are convinced the young murderer did not work alone. They argue that the victim must have been detained earlier in the day by members of the evil "gang" and perhaps was murdered before evening and her body removed to the stable where it was found.

Richard Ivins, father of the murderer, has begun to work up a defense for his son. His plea will be insanity. He said the young man had acted "queerly."

Murdered By Highwaymen. Chicago, Jan. 18.—Another murder mystery was added to Chicago's list of crimes Monday morning in the shooting of Anton Spichalsky, aged 40. Spichalsky had been visiting relatives. En route home he stopped on a corner waiting for a car. Two men approached, accosted him. Frightened, Spichalsky started to run. One of the supposed robbers fired, sending a bullet through the fugitive's stomach. Policemen arrived and took Spichalsky to a hospital, where he died. The thugs escaped.

And Still Another. A second murder was committed at May and Randolph streets, where Joseph Kane was attacked by thugs, who beat him so terribly about the head that his death ensued within a short time.

The American vice-consul, Daniel Meyer, was aboard the vessel. Details are unknown. Probably all were lost. (Mr. Meyer was appointed from West Virginia.)

A Pullman Car Falls.

St. Louis, Jan. 12.—Seven persons were seriously injured, three painfully hurt, and ten others had almost miraculous escapes at 7:35 a. m. Thursday, when the Pullman car "Harvard," attached to the inbound Washburn train No. 3, at the eastern division, toppled and fell 15 feet from the elevated railroad tracks on the levee near Car street.

A NEW LEASE FOR PATRICK

Granted By New York's Governor to Allow Time to Bring in New Evidence.

Albany, N. Y., Jan. 16.—Albert T. Patrick, the New York lawyer, convicted and awaiting execution in Sing Sing prison next week for the murder of William Marsh Rice, in New York city, in September, 1900, was reprieved Monday afternoon by Gov. Higgins until March 15, a space of 66 days.

The reprieve is granted for the purpose of giving Patrick's counsel time to bring before a trial court alleged newly discovered evidence. Its granting followed a hearing before the governor, and was in accordance with the request of former Senator David B. Hill and Judge W. M. K. Olcott, of counsel for Patrick, of the full counsel of District Attorney Jerome, who was present in person.

THREE CHINESE HANGED

They Murdered Germans and French French Military Attaches at Sea.

Chefoo, Jan. 16.—Three Chinese, who confessed to the murder of Military Attache Von Guggenheim and De Cuverville, on their return from Port Arthur prior to the capitulation of that place, were executed here Monday. Lieut. Von Guggenheim and Lieut. De Cuverville, respectively, German and French military attaches at Port Arthur, left there in August, 1904, in a junk manned by Chinese. They were never again seen alive, and a reward of \$2,000 was offered for news of them. Last February members of the junk's crew confessed that the officers had been robbed, murdered and their bodies thrown overboard.

DOMINICAN REBELS LET GO

The Unhappy "Independencia" Surrendered, Then Fled.

New York, Jan. 16.—A cable dispatch from Puerto Plata says: Capt. Carras has delivered the Dominican gumbati, the independence, to the United States. Capt. Carras has surrendered at Monte Christi, with certain restrictions, to Carreras forces.

Associated With Stolen Weapon

Terre Haute, Ind., Jan. 16.—Levi Biers, a rural mail carrier, was mysteriously shot and killed at Earlsville with a revolver stolen from him months ago.

Leaves Many Descendants.

New Castle, Ind., Jan. 16.—Joseph Collins, aged 93, died here. He had 500 grand and great-grandchildren.

DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz. falling of the womb. With this, usually come irregular, painful, scanty or profuse periods, wasteful, weakness, draining, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CAPSAICIN
OF
Woman's Relief

that marvelous curative extract, or natural essence, of herbs, which exert such a wonderful strengthening influence on all female organs. Capsaicin relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

WRITE US A LETTER

In strictest confidence, telling us in your troubles, we will send free advice (in plain sealed envelope). Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"I SUFFERED AWFUL PAIN in my womb and ovaries," writes Mrs. Naomi Baker, of Webster Groves, Mo., "and my menses were very painful and irregular. Since taking Capsaicin I feel like a new woman, and do not suffer as I did."

M. J. FANNING.

GOSPEL TEMPERANCE MEETINGS

M. J. Fanning will speak at Earlington and Other Hopkins County Points.

M. J. Fanning, who is to speak at the M. E. Church, South, Thursday and Friday evenings of next week, comes with high praise from other people to whom he has spoken.

He will speak at other places in Hopkins county on the following dates: Dawson, Friday

evening, 19th. Hold three grand gospel temperance union rallies in Madisonville, Sunday, 21st, morning, afternoon and night. He speaks at Nebo, Tuesday evening, the 23rd, and at Earlington, Thursday and Friday evenings, 25th and 26th. He also speaks at Providence, Monday evening, the 22nd, and at Sobree, Wednesday evening, 24th. In our neighboring county of Webster, Mr. Fanning is said to be drawing large audiences and making a wonderful impression.

Main & Second Streets

Finley's Real Estate

To the citizens of Hopkins and adjoining counties: Should you wish to purchase property of any kind, perhaps it would be of some benefit to you to call on me, as I have quite a number of houses and lots as well as some farm lands for sale. Besides some of the pieces of property that I have listed with me for sale:

First, A nice house and lot on east Broadway street, Madisonville, being one of the nicest homes in that city on this desirable street and residence portion of the city, house new and in first class state of repairs and cheap at \$3,500. Terms easy. Please don't make up your mind without seeing this property.

Second, A nice cottage home on Daves street, near east Broadway, house new, nice outbuildings, good elctern, everything well improved. This property is a bargain at \$1,000. Parties wish to sell this property for cash and are willing to take cash prices in order to make quick sale.

Third, I also have a nice new cottage on Seminary street in the city of Madisonville at a bargain. Can be bought for \$1,650. This property is well located and has a future that will in the next two years make it worth \$2,000. Parties purchasing will get the benefit of the rise.

Fourth, I have two cheap houses listed with me for sale, these houses are renting for \$135 per month, which is over 12 per cent on an investment. This is a fine opportunity for some one who has idle money and wishes to make a fine investment that will bring big returns on a small amount invested.

Fifth, A nice new house on Daves street in the city of Madisonville, Ky., with a vacant lot, good outbuilding, good well of water, new fence, everything in first class state of repairs. This house is less than one year old and has five rooms, hall and back porch, and can be bought for \$1,800 on easy terms.

I also have quite a number of houses and lots that I own individually and some four or five hundred acres of good farming lands that I will sell on easy terms, and some 15 or 20 vacant lots that I will dispose of at prices very satisfactory to people wishing to make good investments. So perhaps it will be of interest to those wanting to buy or trade to call on me about these, and let me urge you, should you think of trading some, to watch my ads in the papers. Respectfully yours, THOS. E. FINLEY, Madisonville, Kentucky.

When the L. & N. Railroad Inaugurated the interurban train between Nortonville and Madisonville it meant big results for Madisonville. Just so when we put on our BIG INTERURBAN SALE next Wednesday.

It will mean big results to the people along the line and all over the county. This is the season for odd lots and remnants, but clean cut values will be the predominant feature of this sale. We propose that Madisonville's Greatest Store shall ever be abreast of the times and stand as a safeguard to the people of Hopkins county against high prices and shoddy merchandise.

Clothing

A very late shipment of fall clothing which we refused to accept until a reduction was granted us, puts us in a position to offer fresh, High Grade Men's Suits in beautiful new Gray and Dark Fancy Worsteds at

\$10 and \$12.50 a Suit.

Odd suits all through the stock have had green tags hung to them, meaning a **Big Reduction**. After a tremendous fall clothing trade we have left about 200 pairs of odd pants from suits. We offer them at prices ranging from \$1.50 to \$3.50, worth twice the price asked. All sizes are in the collection.

Overcoats

On our entire stock of Overcoats for men we offer ONE-FOURTH OFF. They are all marked in plain figures, so there is no jockeying. Just pick them out.
